E. Major/Minor Declaration

- 12. Q: I cannot declare a major/minor/specialisations**
-

Please check if you have fulfilled the followings:

1. Student can only declare your major/minor/ specialisations during the allowable period (e.g. under normal circumstances, you can declare your major/minor when you reach Year 2) otherwise, you will see the message "Online declaration is not available for your curriculum" on screen.

2. Please make sure that you have fulfilled the requirements for the selection of the corresponding major/minor/specialisations; if yes, it is most likely that the set up has not been completed. As such, please contact your home faculty to add back the corresponding major/minor/specialisations in SIS, so that you can select it via online.

3. For Medicine (Biomedical Sciences) students, please contact ITS Service Desk for assistance
http://inraweb.hku.hk/reserved_1/sis_student/sis/SIS-contact.html

13. Q: I cannot declare/change my major/minor as there has message showing that the online declaration has been closed

Students can perform their declaration during the pre-enrollment, course enrollment and add-drop periods. Different academic programmes may have different declaration periods, illustrated in below table.

Usually a student:

Can start to declare from	Year 2 semester 1
Must declare by	To be determined by Faculties for individual program (e.g. Year 3 semester 1)
Can change your declaration by	Usually semester 1 of the last year, but, again, this is determined by the Faculty

If you are making your declaration outside the above-mentioned periods, you will receive a message 'Online declaration is closed.' In this case, students are required to contact their home faculty for assistance.

F. Enrollment

14. Q: How can I view all the course taken in this academic year?

Your enrollment records for the whole academic year can be found under self-service – Transcript (student copy) or academic records in Student Centre.

15. Q: Will there be any changes in the Course Code format?

BUSI 1007	Principles of management	2009 Semester 1	C+	6.00	✓
CBBA 1	Practical Chinese language cou	2009 Semester 2		3.00	◇
ECON 1001	Introduction to Economics I	2009 Semester 1	A	6.00	✓
ECON 1002	Introduction to Economics II	2009 Semester 2		6.00	◇
STAT 302	Business statistics	2009 Semester 1	A-	6.00	✓

In the SIS, all the leading zeros in the course codes will be removed. For example, when you see the course **CBBA 1**, it is actually the same as **CBBA 0001**; and **STAT 302** is actually **STAT 0302**. So if you find that the course code is less than 4 figures, you will know the reason why, and you can “restructure” the course code as 4-figure course code by adding leading zeros.

16. Q: When can I add courses to the “Temporary Course List”?

Temporary Course List will be available from the pre-enrollment periods. For new students, you must complete online Master Registration before doing so.

17. Q: I cannot add course in temporary course list during enrollment add/drop period

Below are the possible reasons:

- Student can refer to “[Student’s Guide to the SIS](#)” to setup the Pop-up blocker, JavaScript and Cookies to see whether you can add course in temporary course list.
- Student should check again whether you have followed the correct procedure in doing course selection (Hint: To add course in temporary course list, student should click “Search” button under “My Requirement” to view your program guide)
- If you still have problem adding courses in the temporary course list after point (a) to (b) are verified, please contact ITS Service Desk for assistance.

http://intraweb.hku.hk/reserved_1/sis_student/sis/SIS-contact.html

18. Q: I cannot proceed further during enrollment, it indicates that “You CANNOT enroll during suspension period or outside course selection period.”

Below are the possible reasons:

- a. Student must have an enrollment appointment for course selection. Please contact ITS Service Desk (http://intraweb.hku.hk/reserved_1/sis_student/sis/SIS-contact.html) for further investigation if necessary.
- b. The Course Selection Period or Enrollment Add/Drop period has not yet begun, student should try again later.
- c. Student cannot perform any add/drop during the suspension period.
- d. The enrollment add/drop period is over. For further questions about enrollment, please contact your faculty office.

If you are undergraduate students, please refer to the following document for different periods of course selection:

https://intraweb.hku.hk/reserved_1/sis_student/sis/reference-materials/Course_Selection_Schedule_for_UG.pdf

19. Q: Why can't I enroll summer course?

Followings are the possible reasons:

1. For new students, you must complete online master registration before doing so.
2. You do not have a valid enrollment appointments during course selection.
3. For students taking 4-year programme, you cannot enroll summer course when you are in the fourth year of study. For example, if you start your programme in September 2016, you are considered to be Year 4 students in September 2020. You are therefore not entitled to enroll summer course in June/July of 2021.

20. Q: I cannot enroll course successfully because of an error "Requisite not met"

It is most likely that you do not fulfil the requisite set for this course. You may please contact the offering department to seek further assistance.

Student can only enrol to a class when it is not full.

22. Q: I cannot enroll course successfully because of an error “You are unable to add this class at this time. The class you have chosen is not available for enrollment at this time.”

The course may have been stopped for further enrollment by faculty/department although it is still open, please contact the corresponding offering department for inquiry about the course status.

23. Q: I cannot add/ drop course successfully because of an error “Department Consent”

This course requires approval from department. Please check with the offering department if this is the case and seek their advice.

24. Q: Can I enroll 7 courses in one semester? If I have enrolled 12 courses in Semester 1 and 2, can I apply for summer course?

To prevent students from overloading, the system has put in some control for each semester. A limit of 36 credits is currently set for Semester 1 and Semester 2 totalling 72 credits per year for most UG programmes.

You should therefore need to plan ahead and apply for overloading before the start of course selection or Add/drop periods.

25. Q: Where can I check the approval status of the courses I enrolled?

You may go to SIS Menu > Enrollment > Enrollment Status page to view the approval status in the “Action” column. For course-based approval courses, after you have enrolled to the course, the status will be ‘Pending’. This means your enrollment is being considered by the faculty/teachers. Only when the status is changed to “Approved”, your enrollment to the course is considered successful.
